

(iii) the number of prosecutions for Internet crimes against children, including—

(I) whether the prosecution resulted in a conviction for such crime; and

(II) the sentence and the statutory maximum for such crime under State law.

(C) The number of referrals made by the task force to the United States Attorneys office, including whether the referral was accepted by the United States Attorney.

(D) Statistics that account for the disposition of investigations that do not result in arrests or prosecutions, such as referrals to other law enforcement.

(E) The number of investigative technical assistance sessions that the task force provided to nonmember law enforcement agencies.

(F) The number of computer forensic examinations that the task force completed.

(G) The number of law enforcement agencies participating in Internet crimes against children program standards established by the task force.

(2) Report to Congress

Not later than 1 year after October 13, 2008, the Attorney General shall submit a report to Congress on—

(A) the progress of the development of the ICAC Task Force Program established under section 17612 of this title; and

(B) the number of Federal and State investigations, prosecutions, and convictions in the prior 12-month period related to child exploitation.

(Pub. L. 110–401, title I, § 106, Oct. 13, 2008, 122 Stat. 4238.)

REFERENCES IN TEXT

The Government Performance and Results Act, referred to in subsec. (d)(1), probably means the Government Performance and Results Act of 1993, Pub. L. 103–62, Aug. 3, 1993, 107 Stat. 285, which enacted section 306 of Title 5, Government Organization and Employees, sections 1115 to 1119, 9703, and 9704 of Title 31, Money and Finance, and sections 2801 to 2805 of Title 39, Postal Service, amended section 1105 of Title 31, and enacted provisions set out as notes under sections 1101 and 1115 of Title 31. For complete classification of this Act to the Code, see Short Title of 1993 Amendment note set out under section 1101 of Title 31 and Tables.

§ 17617. Authorization of appropriations

(a) In general

There are authorized to be appropriated to carry out this subchapter—

- (1) \$60,000,000 for fiscal year 2009;
- (2) \$60,000,000 for fiscal year 2010;
- (3) \$60,000,000 for fiscal year 2011;
- (4) \$60,000,000 for fiscal year 2012; and
- (5) \$60,000,000 for fiscal year 2013.

(b) Availability

Funds appropriated under subsection (a) shall remain available until expended.

(Pub. L. 110–401, title I, § 107, Oct. 13, 2008, 122 Stat. 4241.)

SUBCHAPTER II—ADDITIONAL MEASURES TO COMBAT CHILD EXPLOITATION

§ 17631. Additional regional computer forensic labs

(a) Additional resources

The Attorney General shall establish additional computer forensic capacity to address the current backlog for computer forensics, including for child exploitation investigations. The Attorney General may utilize funds under this subchapter to increase capacity at existing regional forensic laboratories or to add laboratories under the Regional Computer Forensic Laboratories Program operated by the Federal Bureau of Investigation.

(b) Purpose of new resources

The additional forensic capacity established by resources provided under this section shall be dedicated to assist Federal agencies, State and local Internet Crimes Against Children task forces, and other Federal, State, and local law enforcement agencies in preventing, investigating, and prosecuting Internet crimes against children.

(c) New computer forensic labs

If the Attorney General determines that new regional computer forensic laboratories are required under subsection (a) to best address existing backlogs, such new laboratories shall be established pursuant to subsection (d).

(d) Location of new labs

The location of any new regional computer forensic laboratories under this section shall be determined by the Attorney General, in consultation with the Director of the Federal Bureau of Investigation, the Regional Computer Forensic Laboratory National Steering Committee, and other relevant stakeholders.

(e) Report

Not later than 1 year after October 13, 2008, and every year thereafter, the Attorney General shall submit a report to the Congress on how the funds appropriated under this section were utilized.

(f) Authorization of appropriations

There are authorized to be appropriated for fiscal years 2009 through 2013, \$2,000,000 to carry out the provisions of this section.

(Pub. L. 110–401, title II, § 201, Oct. 13, 2008, 122 Stat. 4241.)

CHAPTER 155—AERONAUTICS AND SPACE ACTIVITIES

Sec.

17701. Findings.

17702. Definitions.

SUBCHAPTER I—EARTH SCIENCE

17711. Goal.

17712. Transitioning experimental research into operational services.

17713. Reauthorization of Glory Mission.

17714. Tornadoes and other severe storms.

SUBCHAPTER II—AERONAUTICS

17721. Environmentally friendly aircraft research and development initiative.

- Sec.
 17722. Research alignment.
 17723. Research program to determine perceived impact of sonic booms.
 17724. Funding for research and development activities in support of other mission directorates.

SUBCHAPTER III—EXPLORATION INITIATIVE

17731. Stepping stone approach to exploration.
 17732. Lunar outpost.
 17733. Exploration technology development.
 17734. Exploration crew rescue.

SUBCHAPTER IV—SPACE SCIENCE

17741. Technology development.
 17742. Provision for future servicing of observatory-class scientific spacecraft.

SUBCHAPTER V—SPACE OPERATIONS

PART A—INTERNATIONAL SPACE STATION

17751. Plan to support operation and utilization of the ISS beyond fiscal year 2015.
 17752. International Space Station National Laboratory Advisory Committee.
 17753. Contingency plan for cargo resupply.

PART B—SPACE SHUTTLE

17761. Space Shuttle transition.

PART C—LAUNCH SERVICES

17771. Launch Services strategy.

SUBCHAPTER VI—EDUCATION

17781. Enhancement of educational role of NASA.

SUBCHAPTER VII—NEAR-EARTH OBJECTS

17791. Reaffirmation of policy.
 17792. Findings.
 17793. Requests for information.
 17794. Establishment of policy with respect to threats posed by near-Earth objects.
 17795. Planetary radar capability.

SUBCHAPTER VIII—COMMERCIAL INITIATIVES

17801. Commercial crew initiative.

SUBCHAPTER IX—REVITALIZATION OF NASA INSTITUTIONAL CAPABILITIES

17811. Maintenance and upgrade of Center facilities.
 17812. Assessment of NASA laboratory capabilities.

SUBCHAPTER X—OTHER PROVISIONS

17821. Initiation of discussions on development of framework for space traffic management.
 17822. Astronaut health care.
 17823. National Academies decadal surveys.
 17824. NASA outreach program.
 17825. Protection of scientific credibility, integrity, and communication within NASA.
 17826. Methane inventory.
 17827. Exception to alternative fuel procurement requirement.
 17828. Cooperative unmanned aerial vehicle activities.
 17829. Development of enhanced-use lease policy.

§ 17701. Findings

The Congress finds, on this, the 50th anniversary of the establishment of the National Aeronautics and Space Administration, the following:

(1) NASA is and should remain a multi-mission agency with a balanced and robust set of core missions in science, aeronautics, and human space flight and exploration.

(2) Investment in NASA's programs will promote innovation through research and devel-

opment, and will improve the competitiveness of the United States.

(3) Investment in NASA's programs, like investments in other Federal science and technology activities, is an investment in our future.

(4) Properly structured, NASA's activities can contribute to an improved quality of life, economic vitality, United States leadership in peaceful cooperation with other nations on challenging undertakings in science and technology, national security, and the advancement of knowledge.

(5) NASA should assume a leadership role in a cooperative international Earth observations and research effort to address key research issues associated with climate change and its impacts on the Earth system.

(6) NASA should undertake a program of aeronautical research, development, and where appropriate demonstration activities with the overarching goals of—

(A) ensuring that the Nation's future air transportation system can handle up to 3 times the current travel demand and incorporate new vehicle types with no degradation in safety or adverse environmental impact on local communities;

(B) protecting the environment;

(C) promoting the security of the Nation; and

(D) retaining the leadership of the United States in global aviation.

(7) Human and robotic exploration of the solar system will be a significant long-term undertaking of humanity in the 21st century and beyond, and it is in the national interest that the United States should assume a leadership role in a cooperative international exploration initiative.

(8) Developing United States human space flight capabilities to allow independent American access to the International Space Station, and to explore beyond low Earth orbit, is a strategically important national imperative, and all prudent steps should thus be taken to bring the Orion Crew Exploration Vehicle and Ares I Crew Launch Vehicle to full operational capability as soon as possible and to ensure the effective development of a United States heavy lift launch capability for missions beyond low Earth orbit.

(9) NASA's scientific research activities have contributed much to the advancement of knowledge, provided societal benefits, and helped train the next generation of scientists and engineers, and those activities should continue to be an important priority.

(10) NASA should make a sustained commitment to a robust long-term technology development activity. Such investments represent the critically important "seed corn" on which NASA's ability to carry out challenging and productive missions in the future will depend.

(11) NASA, through its pursuit of challenging and relevant activities, can provide an important stimulus to the next generation to pursue careers in science, technology, engineering, and mathematics.

(12) Commercial activities have substantially contributed to the strength of both the
